Invitation

Dear Colleagues and Friends,

It's time for the annual "Cheng Hsin Live" international conference. The "Cheng Hsin Live" upholds the spirit of the past; we set a particular theme of cardiovascular disease every year to provide a platform for experiences sharing, discussion, and learning. Experts and colleagues also have the opportunity to maintain friendships and get to know each other.

This year, we switch the congress to a virtual meeting due to the outbreak of COVID-19. The first day's (Dec. 5) and second day's (Dec. 6) programs are focused on hypertrophic cardiomyopathy (HCM); and complicated high-risk interventions (CHIP), respectively.

In the past, our treatment modalities for HCM are not very effective. We thank Mayo Clinic-Hypertrophic Cardiomyopathy Clinic for co-organizing an expert forum. We also invited the experts from Beijing Fuwai, Xi'an Xijing Hospital, and other Taiwan's experts to join our discussion.

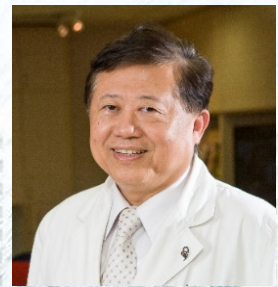

The program will cover the topics such as the latest treatment guidelines, imaging diagnosis, prevention of sudden cardiac death, cardiovascular 3D printing, surgery, trans-catheter intervention, and setup of a therapeutic team in HCM disease. Through this comprehensive discussion, we wish all participants will receive informative feedback. The CHIP conference on the second day will focus on critical coronary intervention in high-risk patients. Through lecturing and live demonstrations from different operators, the participants can share different experiences.

We are sure that your participation would greatly contribute to a high quality and successful conference. Please save the date in your diaries, and we look forward to seeing you around the world, both in-person and virtually.

Best and warm regards,

Jeng Wei, M.D., M.S.D.
Chairman, "2020 Cheng Hsin Live"
Superintendent, Cheng-Hsin General Hospital, Taipei, Taiwan

邀請函

尊敬的專家同道們：

又到了每年一次的「Cheng Hsin Live」國際會議時間，「Cheng Hsin Live」國際會議秉持以往的精神，每年設定特別的心臟血管疾病主題，來提供專家同道們一個分享討論及學習的平台，也讓專家同道們有維繫友誼及認識彼此的機會。

今年因為新冠疫情的影響，將過去的實體會議改成了網路會議的交流。延續今年 6 月台北振興醫院舉辦的「Taipei Valve Summit」網路會議模式，本次籌劃了肥厚性心肌症(hypertrophic cardiomyopathy, HCM)以及複雜高危冠狀動脈介入治療(complex and high-risk indicated procedure/patients, CHIP)兩大主題，分別於台北時間 12 月 5 日及 12 月 6 日舉行。

在心臟介入治療盛行的時代，HCM 彷彿是個容易被遺忘的心臟疾病。為了增進對於 HCM 疾病的認識及治療，這次台北振興醫院主辦的「Cheng Hsin Live」很榮幸地邀請美國梅約診所肥厚性心肌病變團隊(Mayo Clinic Hypertrophic Cardiomyopathy Clinic)共同籌劃了一個 HCM 的專家論壇，同一天也邀請了海峽兩岸的學者作經驗分享，其中包含了北京阜外、西安西京醫院、以及台灣等頂尖心臟團隊。

第一天的 HCM 會議內容涵蓋了最新的治療指南、影像診斷、心律不整猝死的防治、心臟 3D 列印輔助、外科及經導管介入手術等題目，並且也將討論如何設立一個 HCM 團隊來提供病患更好的治療。希望藉由此全面向的討論，讓與會者得到充實的回饋。第二天的 CHIP 會議則將側重「積極冠脈介入治療」的議題，藉由會議研討以及現場各種導管手術的轉播，讓專家學者們作不同經驗的交流，會議節目應是精彩可期。

「海外存知己，天涯若比鄰」，在此時期，衷心期待與您在空中相會。
